Adam lived till Lamech was 56 years old & Shem lived till Isaac was 48. Adam had seen the state of things before the fall, & Shem had seen their state before the flood. So mankind were well furnished with the means of instruction in those times. Adam saw 9 generations, including himself; & Shem saw eleven.
The figures on the scale signify so many hundreds of years; & the spaces containing their names represent the length of their lives. The figures before the spaces show the years of the world when they were born; those within the years they lived; & those after when they died.
The first dotted line points at the time of the flood in the year of the world 1656; & the other at the giving of the law in the year of the world
