Dept of Cumberland

Enclosed I send you roll of Army Followers and Govt Employees in this command.

I have not sent it as early as I should, had I not forwarded to you a communication asking instructions as to who were properly termed Army Followers, whether persons who had come here to reside, and were selling goods, since the place was occupied by our troops. Would probably leave, if the place should by any possibility be captured, to which I have as yet seen no reply.

Yours Respectfully
