**Price per Ticket,
Share, Chance/Other** \$100.00

Event Description: 350 tickets are sold prior to the event for \$100.00 each. The ticket includes a chance to win \$10,000 and dinner. The tickets sold coordinate with the numbers on the raffle balls. Prior to the event, all ticket holder names are listed on a board with their coordinating number(s). During the event, raffle balls are drawn by Linda Rippetoe, Vice President of the Board, from a raffle cage. The first number drawn is the first ticket holder eliminated. As the raffle balls are drawn, they are placed on a peg board showing which numbers have been drawn and their names are erased off the board. When the drawing is down to the last five numbers, the ticket holders are asked if they would like to split the winnings (\$2,000 each) or keep drawing. If they choose to continue, the drawing continues until one

ball is left the winner (\$10,000). Ticket holders do not have to be present to win. They can have a representative present in case their number is one of the last five drawn and a decision has to be made about whether to continue drawing or stop with five winners.
