 - (a) A contractor licensed in one or more sub-classifications under a general construction classification may perform work in such sub-classification(s) under any other general construction classification, provided that such work:
 1. is consistent with established usage and procedures in the construction business; and
 2. is related to that which he is licensed to perform.

(Rule 0680-01-12, continued)

Generally, for purposes of determining the classifications in which an applicant is qualified to engage, the Board will primarily consider whether or not the applicant:

- (2) has adequate experience in the classifications requested; (2) has an established plant (office; warehouse; equipment areas) from which his business is conducted; and (3) has (or has the ability to acquire) the necessary equipment for the classifications requested, and the experience to operate such equipment. The "experience" of an applicant will be considered to be that of one or more of the partners in the case of a partnership applicant; and one or more of the officers in the case of a corporate applicant.

 2. ten (10) times the applicant's working capital. Accounts receivable that are more than three (3) months overdue may not be included within the calculation of working capital.
 - (b) At the Board's discretion, renewal applicants having no apparent deficiency with respect to plant or equipment, but with limited working capital, the greater of:
 1. ten (10) times the applicant's working capital; or
 2. fifty percent (50%) of the applicant's net worth.
 - (c) For other applicants, a lesser amount reflecting the degree of lack of plant or equipment.
- (2) Lines of credit and indemnities (on forms furnished by the Board) may be considered to raise a monetary limitation. Lines of credit may be added up to its full value to the working capital. Credit for indemnities will be limited to fifty percent (50%). However, if the applicant has a negative working capital, lines of credit will be recognized at fifty percent (50%) of value.
- (3) A tolerance of ten percent (10%) will be allowed on the monetary limitation placed on any classification of a license other than a Limited Residential license.
- (4) Subject to such tolerance, no contractor shall engage, or offer to engage, in any project of which the cost (including all material and labor furnished by or through another source other than the owner) would exceed the monetary limitation placed on his license. If a contractor holds a license with more than one classification with different monetary limits, the monetary limits shall not be combined to bid a project.

The Board may, because of the results of an audit, changing financial conditions, or any other relevant factors:
