Statement of Necessity:

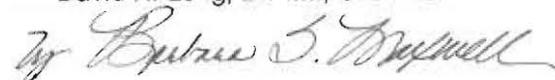

Pursuant to T.C.A. §4-5-209, the Board of Podiatric Medical Examiners is authorized to promulgate public necessity rules in the event that the rules are required by an enactment of the General Assembly within a prescribed period of time that precludes utilization of rulemaking procedures described elsewhere in T.C.A. Title 4, Chapter 5, for the promulgation of permanent rules.

Chapter 1035 of the Public Acts of 2008 provides that certain authorized prescribers (medical doctors, podiatrists, dentists, advanced practice nurses, optometrists, osteopaths, and physician assistants) are required to issue handwritten, typed, or computer-generated prescriptions on tamper-resistant prescription paper in accordance with the Centers for Medicare and Medicaid Services ("CMS") guidelines. The Act becomes effective on October 1, 2008 with respect to TennCare prescriptions and July 1, 2009 for all other prescriptions.

Due to the length of time necessary to complete the rulemaking process, these public necessity rules are required in order for the Board to begin implementation of this program to comply with the enactment of General Assembly. The Board is conducting a rulemaking hearing on the 29th day of July, 2009 to consider comments on the adoption of these as permanent rules.

For a copy of these public necessity rules contact: Barbara Maxwell, Executive Director, 227 French Landing, Suite 300, Heritage Place MetroCenter, Nashville, Tennessee 37243 at (615) 741-4540.

The tamper-resistant prescription shall have either a void or illegal pantograph or a watermark designed to prevent copying; either quantity check-off boxes with refill indicators or a uniform, non-white background designed to prevent erasure or modification; and a list of security features and descriptions.

Paragraph (4) Security Measures and Recordkeeping – provides that the health care providers affected by the law shall ensure that adequate safeguards and security measures are taken to prevent against loss, improper destruction, theft, and unauthorized use of the tamper-resistant prescriptions.

Paragraph (5) Use of Tamper-Resistant Prescriptions- provides that prescriptions that are received by a licensed pharmacy by facsimile or by electronic transmission do not have to be placed on tamper-resistant prescription paper. The method of transmission as well as the details of the prescription should be noted in the patient record.
