0400-40-08-.01 General.

This Chapter prescribes those requirements for Department of Environment and Conservation permits to authorize certain structures or work in or affecting navigable waters of the State of Tennessee pursuant to T.C.A. § 69-1-117 (hereinafter referred to as the Act). Certain structures or work in or affecting navigable waters of the State of Tennessee are also regulated under T.C.A. § 69-3-101 et seq., T.C.A. § 70-5-1 and § 404 of the Clean Water Act (33 U.S.C. 1344; see 33 CFR Part 323). Applicants for a Department of Environment and Conservation permit under this Chapter should refer to the other cited authorities and implementing regulations for those permit requirements to determine applicability to their proposed activities.

Authority: T.C.A. §§ 69-1-117 and 4-5-201 et seq.

0400-40-08-.02 Definitions.

- (1) For the purpose of this Chapter, the following words shall have the same meaning as in the Water Quality Control Act and the rules adopted thereunder: Board, Commissioner, construction, Department, Director, discharge, Division, person, pollution and waters.
- (2) For the purpose of this regulation, unless the context requires otherwise, the following words shall have the definitions given.
 - (a) "Activity" means the performance, or carrying out of a project or construction of a structure.
 - (b) "Alteration" means any repair, change, removal, or addition to a structure which may affect the navigability of rivers, lakes, streams or watercourses subject to this Act.
 - (c) "Commence Construction" means the physical initiation of on site structural or ground work.
 - (d) "Navigable Waters" means any river, lake, stream or watercourse, natural or man-made, or their tributaries which have been adjudicated and held to be navigable in the technical or legal sense, pursuant to T.C.A. § 69-1-101 et seq. and are not subject to the Rivers and Harbors Act, 33 U.S.C., § 401 et seq.
 - (e) "Obstruction" means any work, project, activity, or structure that obstructs or impedes the capability, in the usual stage of the water, of unencumbered navigation by such vessels as are employed in the ordinary purposes of commerce or recreation.

- (f) "Ordinary High Water Mark" means the mark on the shore established by the fluctuations of water and indicated by physical characteristics such as: the residual particulate matter impressed on the bank and vegetation, the presence of litter and debris, changes in the character of soils and vegetation, or other appropriate means that consider the characteristics of the surrounding areas.
- (g) "Ordinary Low Water Mark" means the line which constitutes the usual or ordinary stage of a river or lake, when the volume of water is not increased by rains or freshet, nor diminished below such usual stage or volume by long continued drought.
- (h) "Project" means any dredging or disposal of dredged material, excavation, filling, construction of a structure or modification to an existing structure, or diversion of waters.
- (i) "Structure" means any building, pier, wharf, dolphin, weir, boom, breakwater, bulkhead, revetment, riprap, jetty, mooring structure, moored floating vessel, piling, aid to navigation, or any other obstacle or obstruction.

Authority: T.C.A. §§ 69-1-117 and 4-5-201 et seq.

0400-40-08-.03 Permits.

(1) Purpose of a Permit:

Under the Act, it is not lawful, without a permit, to authorize, undertake, or engage in any activity which has or is likely to have the effect of impairing or obstructing the navigability of any river, lake, stream or watercourse within the state which has been adjudicated and held to be navigable in the technical or legal sense pursuant to T.C.A. § 69-1-101 et seq. and is not subject to the Rivers and Harbors Act, 33 U.S.C., § 401 et seq. The Act is intended to delimit permissible structures and activities. A permit under the Act is designed to define and impose circumstances and conditions necessary to prevent any encumbrance to the navigability of navigable waters which may otherwise result from those structures or activities.

(2) Application:

- (a) Except as otherwise provided in these regulations, a person who plans to engage or who is engaging in an activity below ordinary high water which may affect the course, location or condition of navigable waters must make application in writing to the Commissioner for a permit, or for modification of an existing permit.
- (b) Applicants must complete and submit standard application forms supplied by the Commissioner together with such engineering reports, plans and specifications as are required. The Commissioner may subsequently request additional information as he deems necessary in order to make the permit decision.
- (c) All activities which the applicant plans to undertake which are reasonably related to the same project for which a permit is required under the Act should be included in the same application.
- (d) The Commissioner may reject, as incomplete, any application which does not provide all information requested on the standard application form or does not comply with subparagraph (c) of this paragraph.

(3) Notice and Public Participation:

- (a) Each completed application shall be evaluated and a tentative determination of whether to issue or deny a permit shall be made. If a tentative determination is made to issue a permit, a draft permit shall be prepared that includes a proposed schedule of completion, including interim dates and requirements, and a brief description of any other proposed special conditions.
- (b) In order to inform interested and potentially interested persons of a proposed activity and of the tentative determinations regarding it, public notice shall be circulated within the geographical area of the proposed activity. Upon receipt of a complete application and after a determination has been made that a permit is required, any of the following methods for distribution may be

employed:

1. Posting in and public places within the municipality nearest the premises in which the activity is proposed; or
 2. Posting near the entrance to the applicant's premises and in nearby places; or
 3. Publishing in local newspapers and periodicals, or, if appropriate, in a daily newspaper of general circulation.
- (c) A copy of the public notice and accompanying descriptive information shall be sent to any person who specifically requests one. In addition, a copy shall be sent to any state whose waters may be affected by the proposed activity: to any interstate agency having water quality control or navigation authority over affected waters; to the appropriate District Engineer of the U.S. Army Corps of Engineers; and to other State and Federal agencies. If so requested, the State or Interstate agency shall be provided a copy of the permit application and a copy of the proposed permit. The Commissioner shall send a copy of each notice of application and accompanying descriptive information within the state or a certain geographical area thereof to those persons who have requested the addition of their names to a mailing list. The Commissioner may annually purge the mailing list of those persons who do not renew their requests.
- (d) Public notice of applications shall include the following:
1. Name, address, and phone number of the Division;
 2. Name and address of the applicant(s);
 3. Written description of the proposed activity together with maps, drawings, or other appropriate means to describe the nature of the proposed activity;
 4. Name of the waterway at which the activity is proposed and a description of the location of the activity within or proximity to the waterway;
 5. A statement of the tentative determination to issue or deny a permit for the activity described in the application;
 6. Address and phone number of the premises at which interested persons may obtain further information, request a copy of the draft permit and inspect and copy forms and related documents.
- (e) Interested persons may submit written comments on the tentative determinations within either 15 days of public notice or such greater period as the Commissioner allows. All written comments received before the comment deadline shall be retained and considered in the final determination. Full consideration and appropriate weight will be given to all comments, including those of federal, state, and local agencies and other experts on matters within their expertise.
- (f) Interested persons, including the applicant, may request, in writing, that the Commissioner hold a public hearing on any application. Said request from interested persons must be filed no later than the end of the period allowed for public comment, and must indicate the interest of the party filing it, must concisely state the water quality issues being raised, and the reasons why a hearing is warranted. If there are water quality issues and significant public interest in having a hearing, the Commissioner shall hold one in the geographical area of the proposed activity. No less than 30 days in advance of the hearing, public notice of it shall be circulated at least as widely as was notice of the application. The Commissioner will distribute notice of the public hearing as set forth in subparagraph (c) of this paragraph, and by publishing in a local newspaper. The notice shall cite the date, time and place of the public hearing, a statement of the issues raised by the person requesting the hearing, and the purpose of the public hearing.

(4) Circumstances, Conditions and Limitations of Permits:

- (a) A permit under the Act may authorize both the activity and the resulting use.
- (b) The Commissioner may add special conditions to a permit when such conditions are necessary to satisfy legal requirements and to otherwise satisfy the stated purpose of the Act. Permit conditions will be directly related to the impacts of the proposal, appropriate to the scope and degree of those impacts, and enforceable.
- (c) The Commissioner may suspend, modify or revoke a permit if he determines that the applicant has not complied with any of the conditions or limitations set forth in the permit, or has exceeded the scope of the work set forth in the application. Unauthorized modifications or alterations to a permitted structure or activity are unlawful and may invalidate the permit.
- (d) § 401 Water Quality Certification of any activity which requires a Department of the Army permit for the discharge of dredged or fill material under § 404 of the Clean Water Act will serve as a permit under this Chapter.
- (e) Any activity or structure which was commenced before July 1, 1986, does not need a permit under this Act.
- (f) The decision whether to issue a permit for an activity or structure will be based upon an evaluation of the probable impacts, including cumulative impacts, of the proposed activity and its intended use on navigability. All factors which may be relevant to the proposal must be considered.
- (g) A riparian landowner's general right of access to navigable waters is subject to the general public's right of navigation on the water surface. Proposals which create an undue hindrance to use of, or access to navigable waters, will be deterred as contrary to the public interest.
- (h) The applicant's signature on an application is an affirmation that the applicant possesses or will possess the requisite property interest to undertake the proposed activity. A permit under the Act does not convey any property rights, either in real estate or material, or any exclusive privileges.
- (i) Applications to protect property from erosion will generally be permitted. However, if the protective structure results in an interference to navigation, or is otherwise contrary to the public interest, then an attempt to define and impose reasonable alternative methods to protect the property from erosion will be accomplished by the Commissioner.
- (j) The primary responsibility for determining zoning and land use matters rests with local government. It is the responsibility of the applicant to determine and comply with zoning and land use requirements.
- (k) The applicant shall have the burden of demonstrating that the proposed activity will comply with the requirements of the Act.
- (l) The Commissioner may deny a permit application if the proposed activity would result in an unreasonable hindrance to navigation.
- (m) An activity requiring a permit under these rules may also require a permit pursuant to the Tennessee Water Quality Control Act of 1977, T.C.A. § 69-3-101 et seq. The issuance of such a permit is based upon different criteria than those of this Act and these rules. Therefore, issuance of a permit under these rules has no effect on whether a permit under T.C.A. § 69-3-101 et seq. will be issued.
- (n) A permit shall continue in effect until it expires or is suspended or revoked.
- (o) A permit for a structure or other activity of a permanent nature will normally have no expiration date. However, where a temporary structure is authorized, the permit will be of limited duration with a definite expiration date.
- (p) A permit for construction work for a structure which requires a permit of indefinite duration will

specify a time limit for completing the activity. A permit may also specify the date by which the activity must be started normally within one year of from the date of issuance. The date will be established by the Commissioner and will provide a reasonable period based upon the scope and nature of the activity involved.

- (q) An extension of time of a permit for an activity or structure of a temporary nature may be granted by the Commissioner. A permit will expire if the permittee fails to request and receive an extension of time. A request for an extension of time will be processed in accordance with the regular procedures of paragraphs (2) and (3) of this rule, including public notice, except that such processing is not required where the Commissioner determines that there have been no significant changes in the attendant circumstances since the permit was issued.

(5) Reelfoot Lake

- (a) For the purpose of this rule, the natural water levels of the navigable stream Reelfoot Lake are delineated as follows:
 - 1. The ordinary low water mark is two hundred eighty-two and four-tenths feet (282.4') mean sea level.
 - 2. The full pool level is two hundred eighty-three and six-tenths feet (283.6') mean sea level.
 - 3. The ordinary high water mark is two hundred eight-five feet (285') mean sea level.
- (b) Structures which are located above normal full pool elevation (283.6' msl) but below ordinary high water (285' msl) are authorized by this rule.
- (c) Duck blinds authorized by the Tennessee Wildlife Resources Agency pursuant to T.C.A. §§ 70-1-206 and 70-4-107 are authorized by this rule.

- (6) Review of Permit Denials, Terms and Conditions: Any applicant who is denied a permit or who disagrees with the terms or conditions imposed in the permit is entitled to review of the Commissioner's decision. Any action by the Commissioner regarding a previously issued permit, such as modification or revocation of an existing permit, may also be appealed. Such appeals may be perfected by filing a request for a hearing with the Commissioner's action. Such appeals shall be conducted in accordance with the Tennessee Uniform Administrative Procedures Act T.C.A. §§ 69-3-110 and 4-5-301 et seq.

Authority: T.C.A. §§ 69-1-117 and 4-5-201 et seq.

* If a roll-call vote was necessary, the vote by the Agency on these rulemaking hearing rules was as follows:

| Board Member | Aye | No | Abstain | Absent | Signature (if required) |
|----------------------|-----|----|---------|--------|-------------------------|
| James W. Cameron III | X | | | | |
| Jill E. Davis | | | | X | |
| Mayor Kevin Davis | X | | | | |
| Derek Gernt | | | | X | |
| John Guoynes | X | | | | |
| C. Monty Halcomb | X | | | | |
| Chuck Head | X | | | | |
| Charlie R. Johnson | X | | | | |
| Judy Manners | X | | | | |
| John McClurkan | X | | | | |
| Frank McGinley | | | | X | |
| D. Anthony Robinson | X | | | | |

I certify that this is an accurate and complete copy of rulemaking hearing rules, lawfully promulgated and adopted by the Board of Water Quality, Oil and Gas on 06/18/2013, and is in compliance with the provisions of T.C.A. § 4-5-222.

I further certify the following:

Notice of Rulemaking Hearing filed with the Department of State on: 02/13/13

Rulemaking Hearing(s) Conducted on: (add more dates). 04/09/13

Date: June 18, 2013

Signature: James W. Cameron III

DEPARTMENT OF STATE

Public Hearing Comments

One copy of a document containing responses to comments made at the public hearing must accompany the filing pursuant to T.C.A. § 4-5-222. Agencies shall include only their responses to public hearing comments, which can be summarized. No letters of inquiry from parties questioning the rule will be accepted. When no comments are received at the public hearing, the agency need only draft a memorandum stating such and include it with the Rulemaking Hearing Rule filing. Minutes of the meeting will not be accepted. Transcripts are not acceptable.

There were no comments received during the comment period.

Regulatory Flexibility Addendum

Pursuant to T.C.A. §§ 4-5-401 through 4-5-404, prior to initiating the rule making process as described in T.C.A. § 4-5-202(a)(3) and T.C.A. § 4-5-202(a), all agencies shall conduct a review of whether a proposed rule or rule affects small businesses.

This rulemaking is intended to move the rules from Chapter 1200-04-08 to Chapter 0400-40-08, to edit the document to correct typos and incorrect references, and proposed subparagraph (3)(f) of Rule 0400-40-08-.03 is being amended to include specific procedures for public hearings on permit applications since the current subparagraph references a citation that has been reserved and contains no procedure.

- (1) The type or types of small business and an identification and estimate of the number of small businesses subject to the proposed rule that would bear the cost of, or directly benefit from the proposed rule.

There is no impact to small businesses and consumers resulting from this rulemaking.

- (2) The projected reporting, recordkeeping, and other administrative costs required for compliance with the proposed rule, including the type of professional skills necessary for preparation of the report or record.

There are no additional costs associated with this rulemaking.

- (3) A statement of the probable effect on impacted small businesses and consumers.

There is no impact to small businesses and consumers resulting from this rulemaking.

- (4) A description of any less burdensome, less intrusive or less costly alternative methods of achieving the purpose and objectives of the proposed rule that may exist, and to what extent the alternative means might be less burdensome to small business.

There is no impact to small businesses resulting from this rulemaking.

- (5) A comparison of the proposed rule with any federal or state counterparts.

There is no meaningful comparison with any federal or state counterparts for this rulemaking.

- (6) Analysis of the effect of the possible exemption of small businesses from all or any part of the requirements contained in the proposed rule.

To accomplish the goal of this rulemaking an exemption of small businesses is not possible.

Impact on Local Governments

Pursuant to T.C.A. §§ 4-5-220 and 4-5-228 “any rule proposed to be promulgated shall state in a simple declarative sentence, without additional comments on the merits of the policy of the rules or regulation, whether the rule or regulation may have a projected impact on local governments.” (See Public Chapter Number 1070 (<http://state.tn.us/sos/acts/106/pub/pc1070.pdf>) of the 2010 Session of the General Assembly)

The Department does not anticipate that this rulemaking will have an impact on local governments.

Additional Information Required by Joint Government Operations Committee

All agencies, upon filing a rule, must also submit the following pursuant to T.C.A. § 4-5-226(i)(1).

- (A) A brief summary of the rule and a description of all relevant changes in previous regulations effectuated by such rule;

This rulemaking is intended to move the rules from Chapter 1200-04-08 to Chapter 0400-40-08, to edit the document to correct typos and incorrect references, and proposed subparagraph (3)(f) of Rule 0400-40-08-.03 is being amended to include specific procedures for public hearings on permit applications since the current subparagraph references a citation that has been reserved and contains no procedure.

- (B) A citation to and brief description of any federal law or regulation or any state law or regulation mandating promulgation of such rule or establishing guidelines relevant thereto;

This rulemaking is being promulgated under the authority of T.C.A. §§ 69-1-117 and 4-5-201 et seq.

- (C) Identification of persons, organizations, corporations or governmental entities most directly affected by this rule, and whether those persons, organizations, corporations or governmental entities urge adoption or rejection of this rule;

There is no impact to persons, organizations, corporations or governmental entities resulting from this rulemaking. Consequently, there was no support or rejection of this rule.

- (D) Identification of any opinions of the attorney general and reporter or any judicial ruling that directly relates to the rule;

The Department is not aware of any.

- (E) An estimate of the probable increase or decrease in state and local government revenues and expenditures, if any, resulting from the promulgation of this rule, and assumptions and reasoning upon which the estimate is based. An agency shall not state that the fiscal impact is minimal if the fiscal impact is more than two percent (2%) of the agency's annual budget or five hundred thousand dollars (\$500,000), whichever is less;

This rulemaking will have no fiscal impact on state and local governments.

- (F) Identification of the appropriate agency representative or representatives, possessing substantial knowledge and understanding of the rule;

Robert O'Dette
Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, Tennessee 37243
(615) 253-5319

- (G) Identification of the appropriate agency representative or representatives who will explain the rule at a scheduled meeting of the committees;

Jenny Howard
Deputy General Counsel
Office of General Counsel

- (H) Office address, telephone number, and email address of the agency representative or representatives who will explain the rule at a scheduled meeting of the committees; and

Office of General Counsel
Tennessee Department of Environment and Conservation
William R. Snodgrass Tennessee Tower
SS-7039 (October 2011)

312 Rosa L. Parks Avenue, 2nd Floor
Nashville, Tennessee 37243
(615) 532-0131
Jenny.Howard@tn.gov

(I) Any additional information relevant to the rule proposed for continuation that the committee requests.

The Department is not aware of any.

This **regulation Chapter** prescribes those requirements for Department of Environment and Conservation permits to authorize certain structures or work in or affecting navigable waters of the State of Tennessee pursuant to T.C.A. § 69-1-1~~17~~ (hereinafter referred to as the Act). Certain structures or work in or affecting navigable waters of the State of Tennessee are also regulated under T.C.A. § 69-3-1~~01 et seq.~~, T.C.A. § 70-5-1 and § 404 of the Clean Water Act (33 U.S.C. 1344; see 33 CFR Part 323). Applicants for a Department of Environment and Conservation permit under this Chapter should refer to the other cited authorities and implementing regulations for those permit requirements to determine applicability to their proposed activities.

Authority: T.C.A. §§ 69-1-117 and 4-5-201 et seq.

~~1200-4-8-.02~~ 0400-40-08-.02 Definitions.

- (1) For the purpose of this **regulation Chapter**, the following words shall have the same meaning as in the Water Quality Control Act and the rules adopted thereunder: Board, Commissioner, construction, Department, Director, discharge, Division, person, pollution and waters.
- (2) For the purpose of this regulation, unless the context requires otherwise, the following words shall have the definitions given.
 - (a) "Activity" means the performance, or carrying out of a project or construction of a structure.
 - (b) "Alteration" means any repair, change, removal, or addition to a structure which may affect the navigability of rivers, lakes, streams or watercourses subject to this Act.
 - (c) "Commence Construction" means the physical initiation of on site structural or ground work.
 - (d) "Navigable Waters" means any river, lake, stream or watercourse, natural or man-made, or their tributaries which have been adjudicated and held to be navigable in the technical or legal sense, pursuant to T.C.A. § 69-1-101 et seq. and are not subject to the Rivers and Harbors Act, 33 U.S.C., § 401 et seq.
 - (e) "Obstruction" means any work, project, activity, or structure that obstructs or impedes the capability, in the usual stage of the water, of unencumbered navigation by such vessels as are employed in the ordinary purposes of commerce or recreation.

- (f) "Ordinary High Water Mark" means the mark on the shore established by the fluctuations of water and indicated by physical characteristics such as: the residual particulate matter impressed on the bank and vegetation, the presence of litter and debris, changes in the character of soils and vegetation, or other appropriate means that consider the characteristics of the surrounding areas.
- (g) "Ordinary Low Water Mark" means the line which constitutes the usual or ordinary stage of a river or lake, when the volume of water is not increased by rains or freshet, nor diminished below such usual stage or volume by long continued drought.
- (h) "Project" means any dredging or disposal of dredged material, excavation, filling, construction of a structure or modification to an existing structure, or diversion of waters.
- (i) "Structure" means any building, pier, wharf, dolphin, weir, boom, breakwater, bulkhead, revetment, riprap, jetty, mooring structure, moored floating vessel, piling, aid to navigation, or any other obstacle or obstruction.

Authority: T.C.A. §§ 69-1-117 and 4-5-201 et seq.

~~1200-4-8-.03~~ 0400-40-08-.03 Permits.

(1) Purpose of a Permit:

Under the Act, it is not lawful, without a permit, to authorize, undertake, or engage in any activity which has or is likely to have the effect of impairing or obstructing the navigability of any river, lake, stream or watercourse within the state which has been adjudicated and held to be navigable in the technical or legal sense pursuant to T.C.A. § 69-1-101 et seq. and is not subject to the Rivers and Harbors Act, 33 U.S.C., § 401 et seq. The Act is intended to delimit permissible structures and activities. A permit under the Act is designed to define and impose circumstances and conditions necessary to prevent any encumbrance to the navigability of navigable waters which may otherwise result from those structures or activities.

(2) Application:

- (a) Except as otherwise provided in these regulations, a person who plans to engage or who is engaging in an activity below ordinary high water which may affect the course, location or condition of navigable waters must make application in writing to the Commissioner for a permit, or for modification of an existing permit.
- (b) Applicants must complete and submit standard application forms supplied by the Commissioner together with such engineering reports, plans and specifications as are required. The Commissioner may subsequently request additional information as he deems necessary in order to make the permit decision.
- (c) All activities which the applicant plans to undertake which are reasonably related to the same project for which a permit is required under the Act should be included in the same application.
- (d) The Commissioner may reject, as incomplete, any application which does not provide all information requested on the standard application form or does not comply with ~~item (2)~~ subparagraph (c) of this ~~rule~~ paragraph.

(3) Notice and Public Participation:

- (a) Each completed application shall be evaluated and a tentative determination of whether to issue or deny a permit shall be made. If a tentative determination is made to issue a permit, a draft permit shall be prepared that includes a proposed schedule of completion, including interim dates and requirements, and a brief description of any other proposed special conditions.
- (b) In order to inform interested and potentially interested persons of a proposed activity and of the tentative determinations regarding it, public notice shall be circulated within the geographical area of the proposed activity. Upon receipt of a complete application and after a determination has been made that a permit is required, any of the following methods for distribution may be

employed:

1. Posting in and public places within the municipality nearest the premises in which the activity is proposed; or
 2. Posting near the entrance to the applicant's premises and in nearby places; or
 3. Publishing in local newspapers and periodicals, or, if appropriate, in a daily newspaper of general circulation.
- (c) A copy of the public notice and accompanying descriptive information shall be sent to any person who specifically requests one. In addition, a copy shall be sent to any state whose waters may be affected by the proposed activity: to any interstate agency having water quality control or navigation authority over affected waters; to the appropriate District Engineer of the U.S. Army Corps of Engineers; and to other State and Federal agencies. If so requested, the State or Interstate agency shall be provided a copy of the permit application and a copy of the proposed permit. The Commissioner shall send a copy of each notice of application and accompanying descriptive information within the state or a certain geographical area thereof to those persons who have requested the addition of their names to a mailing list. The Commissioner may annually purge the mailing list of those persons who do not renew their requests.
- (d) Public notice of applications shall include the following:
1. Name, address, and phone number of the Division;
 2. Name and address of the applicant(s);
 3. Written description of the proposed activity together with maps, drawings, or other appropriate means to describe the nature of the proposed activity;
 4. Name of the waterway at which the activity is proposed and a description of the location of the activity within or proximity to the waterway;
 5. A statement of the tentative determination to issue or deny a permit for the activity described in the application;
 6. Address and phone number of the premises at which interested persons may obtain further information, request a copy of the draft permit and inspect and copy forms and related documents.
- (e) Interested persons may submit written comments on the tentative determinations within either 15 days of public notice or such greater period as the Commissioner allows. All written comments received before the comment deadline shall be retained and considered in the final determination. Full consideration and appropriate weight will be given to all comments, including those of federal, state, and local agencies and other experts on matters within their expertise.
- (f) ~~For the purpose of these regulations, procedures for public hearings on permit applications shall be as described in the rules of the Department of Health and Environment, §1200-4-1-.05(3)(g), (h), (i). Interested persons, including the applicant, may request, in writing, that the Commissioner hold a public hearing on any application. Said request from interested persons must be filed no later than the end of the period allowed for public comment, and must indicate the interest of the party filing it, must concisely state the water quality issues being raised, and the reasons why a hearing is warranted. If there are water quality issues and significant public interest in having a hearing, the Commissioner shall hold one in the geographical area of the proposed activity. No less than 30 days in advance of the hearing, public notice of it shall be circulated at least as widely as was notice of the application. The Commissioner will distribute notice of the public hearing as set forth in subparagraph (c) of this paragraph, and by publishing in a local newspaper. The notice shall cite the date, time and place of the public hearing, a statement of the issues raised by the person requesting the hearing, and the purpose of the public hearing.~~

(4) Circumstances, Conditions and Limitations of Permits:

- (a) A permit under the Act may authorize both the activity and the resulting use.
- (b) The Commissioner may add special conditions to a permit when such conditions are necessary to satisfy legal requirements and to otherwise satisfy the stated purpose of the Act. Permit conditions will be directly related to the impacts of the proposal, appropriate to the scope and degree of those impacts, and enforceable.
- (c) The Commissioner may suspend, modify or revoke a permit if he determines that the applicant has not complied with any of the conditions or limitations set forth in the permit, or has exceeded the scope of the work set forth in the application. Unauthorized modifications or alterations to a permitted structure or activity are unlawful and may invalidate the permit.
- (d) ~~§ 404~~ 401 Water Quality Certification of any activity which requires a Department of the Army permit for the discharge of dredged or fill material under § 404 of the Clean Water Act will serve as a permit under this Chapter.
- (e) Any activity or structure which was commenced before July 1, 1986, does not need a permit under this Act.
- (f) The decision whether to issue a permit for an activity or structure will be based upon an evaluation of the probable impacts, including cumulative impacts, of the proposed activity and its intended use on navigability. All factors which may be relevant to the proposal must be considered.
- (g) A riparian landowner's general right of access to navigable waters is subject to the general public's right of navigation on the water surface. Proposals which create an undue hindrance to use of, or access to navigable waters, will be deterred as contrary to the public interest.
- (h) The applicant's signature on an application is an affirmation that the applicant possesses or will possess the requisite property interest to undertake the proposed activity. A permit under the Act does not convey any property rights, either in real estate or material, or any exclusive privileges.
- (i) Applications to protect property from erosion will generally be permitted. However, if the protective structure results in an interference to navigation, or is otherwise contrary to the public interest, then an attempt to define and impose reasonable alternative methods to protect the property from erosion will be accomplished by the Commissioner.
- (j) The primary responsibility for determining zoning and land use matters rests with local government. It is the responsibility of the applicant to determine and comply with zoning and land use requirements.
- (k) The applicant shall have the burden of demonstrating that the proposed activity will comply with the requirements of the Act.
- (l) The Commissioner may deny a permit application if the proposed activity would result in an unreasonable hindrance to navigation.
- (m) An activity requiring a permit under these rules may also require a permit pursuant to the Tennessee Water Quality Control Act of 1977, T.C.A. § 69-3-101 et seq. The issuance of such a permit is based upon different criteria than those of this Act and these Rules rules. Therefore, issuance of a permit under these rules has no effect on whether a permit under T.C.A. § 69-3-101 et seq. will be issued.
- (n) A permit shall continue in effect until it expires or is suspended or revoked.
- (o) A permit for a structure or other activity of a permanent nature will normally have no expiration date. However, where a temporary structure is authorized, the permit will be of limited duration with a definite expiration date.

- (p) A permit for construction work for a structure which requires a permit of indefinite duration will specify a time limit for completing the activity. A permit may also specify the date by which the activity must be started normally within one year of from the date of issuance. The date will be established by the Commissioner and will provide a reasonable period based upon the scope and nature of the activity involved.
 - (q) An extension of time of a permit for an activity or structure of a temporary nature may be granted by the Commissioner. A permit will expire if the permittee fails to request and receive an extension of time. A request for an extension of time will be processed in accordance with the regular procedures of [paragraphs](#) (2) and (3) of this [section rule](#), including public notice, except that such processing is not required where the Commissioner determines that there have been no significant changes in the attendant circumstances since the permit was issued.
- (5) Reelfoot Lake
- (a) For the purpose of this rule, the natural water levels of the navigable stream Reelfoot Lake are delineated as follows:
 - 1. The ordinary low water mark is two hundred eighty-two and four-tenths feet (282.4') mean sea level.
 - 2. The full pool level is two hundred eighty-three and six-tenths feet (283.6') mean sea level.
 - 3. The ordinary high water mark is two hundred eight-five feet (285') mean sea level.
 - (b) Structures which are located above normal full pool elevation (283.6' msl) but below ordinary high water (285' msl) are authorized by this rule.
 - (c) Duck blinds authorized by the Tennessee Wildlife Resources Agency pursuant to T.C.A. §§ 70-1-206 and 70-4-107 are authorized by this rule.
- (6) Review of Permit Denials, Terms and Conditions: Any applicant who is denied a permit or who disagrees with the terms or conditions imposed in the permit is entitled to review of the Commissioner's decision. Any action by the Commissioner regarding a previously issued permit, such as modification or revocation of an existing permit, may also be appealed. Such appeals may be perfected by filing a request for a hearing with the Commissioner's action. Such appeals shall be conducted in accordance with the Tennessee Uniform Administrative Procedures Act T.C.A. §§ [69-3-110 and 4-5-201301](#) et seq.

Authority: T.C.A. §§ 69-1-117 and 4-5-201 et seq.

* If a roll-call vote was necessary, the vote by the Agency on these rulemaking hearing rules was as follows:

| Board Member | Aye | No | Abstain | Absent | Signature (if required) |
|----------------------|-----|----|---------|--------|-------------------------|
| James W. Cameron III | X | | | | |
| Jill E. Davis | | | | X | |
| Mayor Kevin Davis | X | | | | |
| Derek Gernt | | | | X | |
| John Guynes | X | | | | |
| C. Monty Halcomb | X | | | | |
| Chuck Head | X | | | | |
| Charlie R. Johnson | X | | | | |
| Judy Manners | X | | | | |
| John McClurkan | X | | | | |
| Frank McGinley | | | | X | |
| D. Anthony Robinson | X | | | | |

I certify that this is an accurate and complete copy of rulemaking hearing rules, lawfully promulgated and adopted by the Board of Water Quality, Oil and Gas on 06/18/2013, and is in compliance with the provisions of T.C.A. § 4-5-222.

I further certify the following:

Notice of Rulemaking Hearing filed with the Department of State on: 02/13/13

Rulemaking Hearing(s) Conducted on: (add more dates). 04/09/13

Date: June 18, 2013

Signature: _____

Name of Officer: James W. Cameron III

Tre Hargett
Secretary of State

Public Hearing Comments

One copy of a document containing responses to comments made at the public hearing must accompany the filing pursuant to T.C.A. § 4-5-222. Agencies shall include only their responses to public hearing comments, which can be summarized. No letters of inquiry from parties questioning the rule will be accepted. When no comments are received at the public hearing, the agency need only draft a memorandum stating such and include it with the Rulemaking Hearing Rule filing. Minutes of the meeting will not be accepted. Transcripts are not acceptable.

There were no comments received during the comment period.

Regulatory Flexibility Addendum

Pursuant to T.C.A. §§ 4-5-401 through 4-5-404, prior to initiating the rule making process as described in T.C.A. § 4-5-202(a)(3) and T.C.A. § 4-5-202(a), all agencies shall conduct a review of whether a proposed rule or rule affects small businesses.

This rulemaking is intended to move the rules from Chapter 1200-04-08 to Chapter 0400-40-08, to edit the document to correct typos and incorrect references, and proposed subparagraph (3)(f) of Rule 0400-40-08-.03 is being amended to include specific procedures for public hearings on permit applications since the current subparagraph references a citation that has been reserved and contains no procedure.

- (1) The type or types of small business and an identification and estimate of the number of small businesses subject to the proposed rule that would bear the cost of, or directly benefit from the proposed rule.

There is no impact to small businesses and consumers resulting from this rulemaking.

- (2) The projected reporting, recordkeeping, and other administrative costs required for compliance with the proposed rule, including the type of professional skills necessary for preparation of the report or record.

There are no additional costs associated with this rulemaking.

- (3) A statement of the probable effect on impacted small businesses and consumers.

There is no impact to small businesses and consumers resulting from this rulemaking.

- (4) A description of any less burdensome, less intrusive or less costly alternative methods of achieving the purpose and objectives of the proposed rule that may exist, and to what extent the alternative means might be less burdensome to small business.

There is no impact to small businesses resulting from this rulemaking.

- (5) A comparison of the proposed rule with any federal or state counterparts.

There is no meaningful comparison with any federal or state counterparts for this rulemaking.

- (6) Analysis of the effect of the possible exemption of small businesses from all or any part of the requirements contained in the proposed rule.

To accomplish the goal of this rulemaking an exemption of small businesses is not possible.

Impact on Local Governments

Pursuant to T.C.A. §§ 4-5-220 and 4-5-228 "any rule proposed to be promulgated shall state in a simple declarative sentence, without additional comments on the merits of the policy of the rules or regulation, whether the rule or regulation may have a projected impact on local governments." (See Public Chapter Number 1070 (<http://state.tn.us/sos/acts/106/pub/pc1070.pdf>) of the 2010 Session of the General Assembly)

The Department does not anticipate that this rulemaking will have an impact on local governments.

Additional Information Required by Joint Government Operations Committee

All agencies, upon filing a rule, must also submit the following pursuant to T.C.A. § 4-5-226(i)(1).

- (A)** A brief summary of the rule and a description of all relevant changes in previous regulations effectuated by such rule;

This rulemaking is intended to move the rules from Chapter 1200-04-08 to Chapter 0400-40-08, to edit the document to correct typos and incorrect references, and proposed subparagraph (3)(f) of Rule 0400-40-08-.03 is being amended to include specific procedures for public hearings on permit applications since the current subparagraph references a citation that has been reserved and contains no procedure.

- (B)** A citation to and brief description of any federal law or regulation or any state law or regulation mandating promulgation of such rule or establishing guidelines relevant thereto;

This rulemaking is being promulgated under the authority of T.C.A. §§ 69-1-117 and 4-5-201 et seq.

- (C)** Identification of persons, organizations, corporations or governmental entities most directly affected by this rule, and whether those persons, organizations, corporations or governmental entities urge adoption or rejection of this rule;

There is no impact to persons, organizations, corporations or governmental entities resulting from this rulemaking. Consequently, there was no support or rejection of this rule.

- (D)** Identification of any opinions of the attorney general and reporter or any judicial ruling that directly relates to the rule;

The Department is not aware of any.

- (E)** An estimate of the probable increase or decrease in state and local government revenues and expenditures, if any, resulting from the promulgation of this rule, and assumptions and reasoning upon which the estimate is based. An agency shall not state that the fiscal impact is minimal if the fiscal impact is more than two percent (2%) of the agency's annual budget or five hundred thousand dollars (\$500,000), whichever is less;

This rulemaking will have no fiscal impact on state and local governments.

- (F)** Identification of the appropriate agency representative or representatives, possessing substantial knowledge and understanding of the rule;

Robert O'Dette
Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, Tennessee 37243
(615) 253-5319

- (G)** Identification of the appropriate agency representative or representatives who will explain the rule at a scheduled meeting of the committees;

Jenny Howard
Deputy General Counsel
Office of General Counsel

- (H)** Office address, telephone number, and email address of the agency representative or representatives who will explain the rule at a scheduled meeting of the committees; and

Office of General Counsel
Tennessee Department of Environment and Conservation
William R. Snodgrass Tennessee Tower

312 Rosa L. Parks Avenue, 2nd Floor
Nashville, Tennessee 37243
(615) 532-0131
Jenny.Howard@tn.gov

(l) Any additional information relevant to the rule proposed for continuation that the committee requests.

The Department is not aware of any.
