Subject: Docket No. 08-00078

Ms. Dillon,

Midwestern telecommunications, Inc. would like to extend the deadline for submitting the data requested for Docket No. 08-00078, Application for a Certificate to Provide Competing Local Telecommunications Services in Tennessee. We are currently waiting on approval of the \$20,000 Surety Bond before we proceed further. This is the only reason for the delay. The application for the Surety Bond is being processed by Travelers Casualty and Surety Company of America and we should have a response in a few days. Please let me know if this Docket No is still open so I will know how to proceed.

Four hard copies of this letter will be sent via overnight mail.

ARLEE HOLT
