 T.R.A. DOCKET ROOM

**RE: Letter of Protest
 Petition of HC Sewage Treatment, LLC for Approval of Adjustment of
 its Rates and Charges
 Docket No. 08-00126**

Mr. Hargett:

Greenville Oil & Petroleum, Inc. would like to formally protest the sewer rate increase proposed by HC Sewage Treatment, LLC. The proposed rate increase exceeds what can be tolerated and is very extreme. Furthermore, the increase will prevent future growth and development to the Hampton community. Greenville Oil & Petroleum, Inc. developed the property at 110 First Street, Hampton, Tennessee in late 2001 with the verbal and written understanding of the sewer rates. This property would not have been developed by us or anyone else if the initial sewer rates would have been as proposed as is in this increase. We understand that Mr. Strickland intended to have numerous other businesses and residences tapped into his sewer system, but his failure to do so can't possibly be passed along to us as existing customers in the form of an increase of this magnitude. Greenville Oil & Petroleum, Inc. has invested approximately \$1,500,000.00 to construct a BP convenience store and a McDonald's in the Hampton community in good faith based on the existing sewer rates. Also, our negotiations with our lessee (McDonalds) were done in good faith based on the sewer rates being maintained. The proposed sewer increase will jeopardize our continuing profitability and presence in the community.

Sincerely,

R. Allen Johnson
 President
 Greenville Oil & Petroleum, Inc.
