Dear Sir

She Bearer

Dr J P Dromgole informs me that he has been so unfortunate as to incur your displeasure, and the penalty of banishment has been inflicted upon him.

I am exceedingly sorry that any thing should have occurred to mar the Dr's peace, for a more quiet and peaceful man I have never known.

I have been intimately acquainted with him since his residence in this city, and he has always obeyed and advised others to obey the powers that be.

I cannot believe that he is a Secessionist, for I have witnessed many acts of Kindness from him to our sick Soldiers, and can produce the evidence of a good number of the 130th Ill Reg U.S.V. who will testify to the — facts.

From Incapacity a inattention. this Rock
holding last confidence in their Surgeon
and appeal to Dr Dromgole and myself
for relief. they were at this time quar-
tered on Beal St. The Dr visited them
nearly every day and was frequently
called out of his bed at nights, and
in all cases. cheerfully gave his advice
and assistance, without charge
During the greater portion of my
acquaintance with the Dr he was living
here without his family.

Now General if you can look upon
any testimony as the mitigating circum-
stance in the Dr's case. "Temper the Wind
of justice with mercy" and "return
to him the "bread. he casts upon the
waters" many days ago

Yours Respectfully
