

## PREFACE

In 1914 and 1915 questionnaire forms were sent to all known living Tennessee Civil War soldiers by Dr. Gus Dyer who was serving as Archivist at that time. Again in 1920 Mr. John Trotwood Moore, Director of the Tennessee Historical Commission, sent out a revised form which covered essentially the same data. All the completed forms that were returned were received by 1922. These questionnaires contain information regarding date and place of birth; date and place of enlistment; war service, including descriptions of battles, prison life, and other war experiences; economic and social status of the soldier and his family; genealogical data; educational and religious data; occupation before and after the war; and some other facts. The veterans were encouraged to write fully of their experiences both during the war and afterward. Many of them sent additional pages of material.

This index to the questionnaires which are housed in the Manuscripts Section of the Tennessee State Library and Archives contains the soldier's name, his company, and his regiment as given on the completed form by the soldier.

The index is being published in order that the public may be made more aware of these records and the wealth of information contained in them.
