SCOPE AND CONTENT

Record Group 140, Department of Health and Environment, Division of Information Resources, 1977-1980, consists of the annual reports from the hospitals, nursing homes and related health care facilities in Tennessee. These reports are arranged numerically statewide according to the Regional Service Areas. Within the service areas, facilities are arranged by county and then alphabetically within that county.

These reports identify the health facility, whether private, governmental or church sponsored. Also included in the reports is such information as the accreditation status, state approval and services available to the patients in these agencies. Each report concludes with a financial statement of the operations and capital assets of the facility furnishing the information.
