**TENNESSEE STATE LIBRARY AND ARCHIVES  
COUNTY & VITAL RECORDS NAME INDEX FILE  
?-1992**

**RECORD GROUP 206**

Processed by:  
Florence Langford  
Archives and Manuscripts Unit  
Technical Services Section  
Date Completed: September 30, 1992

## SCOPE AND CONTENT NOTE

The information provided on this microfilm was obtained from actual records (county, birth, death, etc.) which are on microfilm and on file in the Tennessee State Library and Archives. Please be advised that the spelling of names and places may or may not correspond with the information you are seeking. However, as every researcher knows, for the most part, names were spelled like they sounded to the person taking down the information. The transcriber has taken every effort to transcribe the names to the best of her knowledge. Please be sure and check variations of spelling of names and places. If you have doubts as to the validity of the source of information, it is suggested that you check the original source. There may also be errors in typing and alphabetizing as this project was not meant to be a true and perfect one, just one to give researchers a place to start, perhaps, to find their family name in a given county at a given time period. Your patience and understanding is appreciated when using these reference cards.

It might be noted that the county (or counties) given in the top right corner of each card refers only to the first person listed on the card. Also as you will note, sometimes at the bottom of the card, there is a not that indicates some information was provided by a researcher. These facts may or may not be accurate. When a card has "Ref.: See card file under .....", you must consult the name on this line to view the entire information.

It is hoped this information will be helpful in your research.

Florence Langford
