## SCOPE AND CONTENT NOTE

The Tennessee Bicentennial Commission was created in 1992 by an Executive Order of Governor Ned McWherter with the mission of developing a comprehensive program for celebrating the bicentennial of Tennessee's admission to the union in 1796.

In 1993, Tennessee 200, Inc., was created by the Tennessee Bicentennial Commission to provide staff support to develop and implement bicentennial programs. State sponsored programs and events during the bicentennial year included "Tennessee Treasure's", a traveling exhibit of artifacts and treasures from the Tennessee State Museum; a "Volunteer 200" Day on June 1, 1995 in which citizens across the state undertook volunteer projects in their counties focused on their heritage; the issuance of a bicentennial stamp; an Arts and Entertainment Festival; the construction and dedication of a Bicentennial Capitol Mall crowned with the burial of "time capsules" from each of the 95 counties; the development of an Archives program and World War II Veteran's Survey with the partnership of the Tennessee State Library and Archives; and a Civil War Heritage Trail to link and interpret historic sites.

The Tennessee 200, Inc. collection is arranged in seventeen series groups. The first nine of the series represent documents from the files of staff members. The remainder of the series are divided as follows: (1) "Tennessee Treasures"; (2) "Volunteer 200 Day"; (3) World War Survey Supplemental materials; (4) Negatives; (5) Photographs; (6) Slides; (7) Audio/Visual and (8) Computer Discs. An additional series for oversize materials was added in July 2002, for the addition of two Tennessee 200 posters.

Whenever negatives and photographs can be matched, a notation has been made in the container list. Also, many of the photographs are in multiple copies in the individual sleeves or envelopes.

An organizational chart is included for the Tennessee 200 staff. Accompanying the chart is a list of the personnel who held various positions.

The negatives, slides, and photographs are stored in a climate-controlled vault, location II-D-3-4v. A twenty-four hour waiting period is required before using these materials.

A separate Scope and Content Note has been developed for the Audio/Visual and computer disc portion of the collection.

## **SCOPE AND CONTENT NOTE AUDIO/VIDEO AND COMPUTER DISCS**

Included in the TN 200, Inc., collection, Record Group 270, is a large number of audio and video materials. These materials span the time period 1992 - 1997, and consist of audiocassettes, videocassettes, and computer discs.

The audiocassettes in this collection are housed in boxes 76 - 80. The tapes consist of primarily meetings of the Bicentennial Commission, the TN 200 Board of Directors, and related committees. Also included are some tapes of Public Service Announcements that aired across the state regarding Bicentennial related events.

The videocassettes in this collection are housed in boxes 81 - 92. The videotapes document the various events that took place across the state in conjunction with the Bicentennial celebration, as well as some Public Service Announcements that aired across the state. The largest event held was the dedication ceremony relating to the Bicentennial Mall in Nashville, and there are several videotapes documenting this event. A total of 94 videocassettes are included in this collection. Most are VHS format, but there are also several tapes that are in Beta format, including large format studio master tapes. All of the Beta format tapes have duplicate VHS copies.

The computer discs in this collection are housed in boxes 93 - 95. The computer discs consist of office files relating to work performed by the staff of TN 200. Most of the discs in the collection are Apple Macintosh format, so special conversion software must be used to be able to view the files. An examination of the files revealed that most of the computer files are in the collection in printed form. Some of the files that were viewed appeared to be draft editions of contracts and memorandum, but it is impossible to determine the final format of the documents, or whether or not the computer disc version is the final version. The discs are divided up by files with known authors, then known subjects with multiple authors, and then finally, a group of unknown or unable to open files.

The audio/video and computer disc portion of the collection is housed in a climate-controlled vault, location II-D-4-6v. A twenty-four hour waiting period is required before using these materials.

## **TENNESSEE 200 STAFF**

Executive Director: Kelly Tolson

Statewide Projects Director: Carolyn Brackett

Exposition Development Director: Nathan Cline

Marketing and Communications Director: Milt Capps

Promotions and Development Director: JoAnna Warnock

Senior Executive Assistant/Legislative Aide: J.A. Bucy

Marketing and Public Relations Manager/Assistant to Executive Director: Cindy Bean

Business Manager: John Bolger

County Programs Manager: Le Anne Hamilton

Program Assistant: Suzette Hallum

Program Assistant, Archives Program: Lauren Batte

Exposition Development Team Member: Gene Turnage

Program Assistant, Exposition Train: Tara Eck

Program Assistant: Gordon Stacy Harmon

Middle Tennessee Field Representative: Jane Gaither

West Tennessee Field Representative: Carolyn Garner

East Tennessee Field Representative: Dan Myers

Receptionist: Trish Caraway

Receptionist: Naimah Jihad-Bond
