INTRODUCTION

The 2003-2004 public library statistics were collected from each public library in Tennessee on a data collection form. A reduced-size copy of the form, instructions and definitions may be found in the Appendix.

The data collected conform to the national data format with definitions created by the Federal State Cooperative System (FSCS), a federally-funded program established to collect and publish accurate, consistent and comparable public library statistics annually from each state.

Because the FSCS timelines were advanced to provide more timely data, the libraries' figures were run through the edit checks provided by the FSCS WinPlus software prior to this publication. This change in procedure has resulted in some corrections, and thus better published data.

Again this year the presentation of these figures would not be possible without the collection and development work of the local library directors and their treasurers or bookkeepers along with the regional data coordinators who check and enter the data for their libraries.

All persons in the state are included within the service area of a full-service library and thus the population of each county is assigned to one or more full-service library. The population figures for the full-service libraries reflect the "Official Public Library Service Area" population submitted to each library board in the summer of 2003 for review and adoption. Only full-service libraries, as defined in the Tennessee Minimum Standards for Non-Metropolitan Libraries, are assigned an official service area population. Information about the population assignments can be obtained upon request at the regional libraries.

The report is organized into three parts:

Part I: Libraries listed alphabetically by city including sections on Income, Expenditures, Services, and Collection.

Part II: Libraries listed by region and county and city including sections on Income, Expenditures, Services, and Collection. Those libraries not affiliated with the 12 regional libraries in the state are listed at the end of this section. These include the four metropolitan libraries, each of which functions as a region, and five public libraries that are independent of the regions.

Part III: A report of other miscellaneous information presented alphabetically by city and a report of statistics for branches of library systems.

There are two significant items of change to be noted in this year's report:

Morristown-Hamblen Public Library

The Davis-Homes Branch of the Morristown-Hamblen Public Library was re-opened in FY 2003-2004 and has thus been added to the branches report.

Other Collection Materials

Beginning in FY 2003-2004, the number of E-books and databases were added to the breakdown of materials collection for each library. For this year's report, these figures are included in the totals for "Other" materials.

Books are non-serial printed publications (including music and maps) that are bound in hard or soft covers, or in loose-leaf format. Include non-serial government documents. Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Books packaged together as a unit (e.g. a 2-volume set) and checked out as a unit are counted as one physical unit. Serial back files in print. Serials are publications issued in successive parts, usually at regular intervals that are intended to be continued indefinitely. Serials include periodicals (magazines); newspapers; annuals (reports, yearbooks, etc); journals, memoirs, proceedings and transactions of societies; and numbered monographic series. Government documents and reference tools are often issued as serials. Except for the current volume, count unbound serials as a volume when the library has at least half of the issues in a publisher’s volume. Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Serials packaged together as a unit (e.g. a 2-volume serial monograph) and checked out as a unit are counted as one physical unit.
# Locally owned					
# Regionally owned					
26. Audio materials:					<p>Def: material on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. Includes audio-cassettes, audio cartridges, audio discs (including audio-CD-ROMS), audio reels, talking books, audio kits including a book, other sound recordings.</p> <p>Note: under this category report only items the library has selected as part of the collection and made accessible through the library’s Online Public Access Catalog (OPAC).</p> <p>Report the number of physical units, including duplicates. # Regionally owned					Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Items packaged together as a unit (e.g. two video cassettes for one movie) and checked out as a unit are counted as one physical unit.
28. Microforms: # Locally owned					Def: a photographic reproduction of textual, tabular, or graphic material reduced in size so that it can normally be used only with magnification. The two main types of microforms are micro reproductions on transparent material, including roll microfilm aperture cards, microfiche, and ultra fiche, and reproductions on opaque material. Exclude current serial subscriptions. Count rolls of film. Estimate pieces of fiche..
# Regionally owned					
29. Films: # Locally owned					Def: (also “motion picture”): a length of film, with or without recorded sound, bearing a sequence of images that create the illusion of movement when projected in rapid succession (usually 18 or 24 frames per second).
# Regionally owned					Motion pictures are produced in a variety of sizes: 8, 16, 35, 55, and 70mm & a variety of formats: cartridge, cassette, loop, reel).

Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of physical units or electronic units, including duplicates, for all outlets. For smaller libraries, if volume data are not available, count the number of titles. E-books packaged together as a unit (e.g. multiple titles on a single e-book reader) and checked out as a unit are counted as one physical unit.
# Regionally owned					

31. Databases:					<p>Note: All of the individual databases included in TEL are to be reported here and not in electronic serials – see the definitions for each section to provide explanation.</p> <p>Def: Report the number of databases (including locally mounted or remote, full-text or not) for which temporary or permanent access rights have been acquired. A database is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts) with a common user interface and software for the retrieval and manipulation of the data. Note: The data or records are usually collected with a particular intent and relate to a defined topic. A database may be issued on CD-ROM, diskette, or other direct access method, or as a computer file accessed via dial-up methods or via the Internet. Include such services as EBSCO Host and OCLC FirstSearch, but do not include other electronic serial databases (e.g., Project MUSE, OCLC ECO Project). Report the number of database licenses (subscription or one-time purchases). Each licensed database product is counted individually even if access to several licensed database products is supported through the same interface (e.g., ProQuest, OCLC FirstSearch).</p>

Electronic serial subscriptions include serials held locally or remote resources that the library has authorization or access, including those available through statewide or consortia agreements. Do not include subscriptions to indexing and abstracting databases that include full-text serial content (e.g., EBSCO Host, ProQuest, OCLC FirstSearch).

Part IV – Library Service

<p>36. Service hours: Take a typical workweek from Sunday through Saturday in which the library is open its regular hours, containing no holidays. Multiply the total service hours of that week by 52 for the annual service hours. Minor variations in scheduled public service hours need not be included; however, extensive hours closed to the public due to natural disasters or other events should be excluded even if the staff is scheduled to work.</p> <p>For Systems: Using the above method, identify annual service hours for each branch and bookmobile and add to main library’s annual service hours total. This new total reflects all service hours in the system. (See Part XI, page 9)</p>	<p># Service Hours:</p>
--	--------------------------------

<p>37. Annual attendance in library: If an actual count of visits is not available, count the total number of persons entering the library per typical week including persons attending activities, meetings, and persons requiring no staff services. Multiply this figure by 52 to get annual attendance.</p> <p>For Systems: Include attendance at main library, branches and bookmobiles. (See Part XI, page 9)</p>	<p>#Attendance:</p>
--	----------------------------

<p>38. Annual reference transactions completed: If an actual count of reference transactions is not available, count the total reference transactions per typical week and multiply this figure by 52 to get annual transactions. A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable databases (including computer-assisted instruction), catalogs and other holdings records, and through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction. The request may come in person, by phone, by fax, mail, or by electronic mail from an adult, a young adult, or a child.</p> <p>NOTE: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction or locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.</p> <p>For Systems: include reference transactions at main library, branches and bookmobiles</p>	<p># Reference Transactions:</p>
--	---

<p>39. Annual circulation transactions: the lending of library materials to registered library borrowers for a specified period of time and under clearly identified rules and regulations. This activity includes charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction. Do not count in-house use of library materials. For juvenile circulation count the total annual circulation of all children’s materials in all formats to all users. (If records by age are not kept, use estimates based on percentages of typical week. Indicate if records or estimates are used) Suggestion: use monthly figures previously sent to region, so these numbers agree.</p> <p>For Systems: include circulation at main library, branches and bookmobiles (See Part XI, page 9).</p>	<p>___Records ___Estimate</p>	<p>a. # Adult Circulation:</p>

<p>40. Total number of programs/presentations made to groups: An information contact planned in advance in which a staff member or person invited by a staff member provides information intended for a number of persons. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational programs or presentations. Programs or presentations both on and off the library premises are included, as long</p>	<p>a. # Adult Programs:</p>
	<p>b. # Juvenile Programs:</p>

<p>as the library sponsors them. Does not include meetings sponsored by other groups using library meeting rooms. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.</p> <p>For Systems: include total at main library, branches and bookmobiles.</p>	<p>c. # Total Programs:</p>
---	------------------------------------

<p>41. Total attendance at programs/presentations: Headcount at programs counted above.</p> <p>Total attendance at children's programs includes any adults attending children's program.</p> <p>For Systems: include total at main library, branches and bookmobiles.</p>	<p>a. # Adult Program Attendance:</p>
	<p>b. # Juvenile Program Attendance:</p>
	<p>c. # Total Program Attendance:</p>

<p>42. Total number of children participating in <u>2003</u> Summer Reading Program: Use figures from summer of 2003, <i>not</i> 2004.</p> <p>For Systems: include total at main library, branches and bookmobiles</p>	<p>a. # Listeners Enrolled:</p>
	<p>b. # Readers Enrolled:</p>
	<p>c. Total SRP Enrollment:</p>

Part V – Resource Sharing

<p>Interlibrary Loans: An item of library material, or a copy of the material, made available by one library to another upon request. It includes both the lending and borrowing. The libraries involved in interlibrary loan are NOT under the same library administration (i.e. not affiliated branches)</p> <p>For Systems: Report total of loans going to or coming from libraries outside the system (not within system).</p>	<p>43. Interlibrary loans as borrower: actual items received from other libraries and from Tennessee Resource Center</p>	#
	<p>44. Interlibrary loans as lender: actual items provided to other libraries</p>	#

<p>45. Reciprocal Borrowing Agreements: Reciprocal borrowing is a program in which libraries mutually agree to circulate materials to the patrons who hold a valid library card from other libraries participating in the program. Reciprocal borrowing allows walk-in library users to check out materials free of charge from any participating library. In Tennessee, the Tennessee Library Card (TLC) program is a statewide reciprocal borrowing program available to public libraries and their users.</p>	<p>a. Does your library participate in the Tennessee Library Card (TLC) Program?</p>	<p>Yes___ No___</p>
	<p>b. Does your library have reciprocal borrowing agreements with other libraries?</p>	<p>Yes___ No___</p>
	<p>c. If yes, which libraries?</p>

Part X– Library Expenditures by Type and Capital Revenue and Expenditures

Section A – Operating Expenditures:

Operating expenditures are the current and recurrent costs necessary to support the provision of library services. Significant costs, especially benefits and salaries, that are paid by other taxing agencies (government agencies with the authority to levy taxes) “on behalf of” the library may be included if the information is available to the library. Only such funds that are supported by expenditure documents (such as invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not included.

NOTE: Three columns are being provided to record expenses: Column I is for those paid from funds obtained through appropriations (used in testing for Maintenance of Effort). Column II “From Other Income” is for non-capital expenses paid from any source except appropriations. Column II includes expenditures of memorials, gift funds and grant funds or one-time expenditures from fines and fees. Column III is the sum of Column I plus Column II.

The totals in line 67 will probably closely resemble the figures from the Income section. Total Operating Appropriations Page 7 #56 will be similar to line 67 Column A on this page. Total Other Income Page 7 #60 will be similar to line 67 Column B on this page. Although similar, the figures will not necessarily be identical, depending on the timing of spending the income received.
